Characteristics

- Direct Vertical Relationship
- Full Freedom to Departmental Heads
- Simple Operation System
- No Provisions for Staff Specialists
- Direct Instructions to Subordinates

Advantages

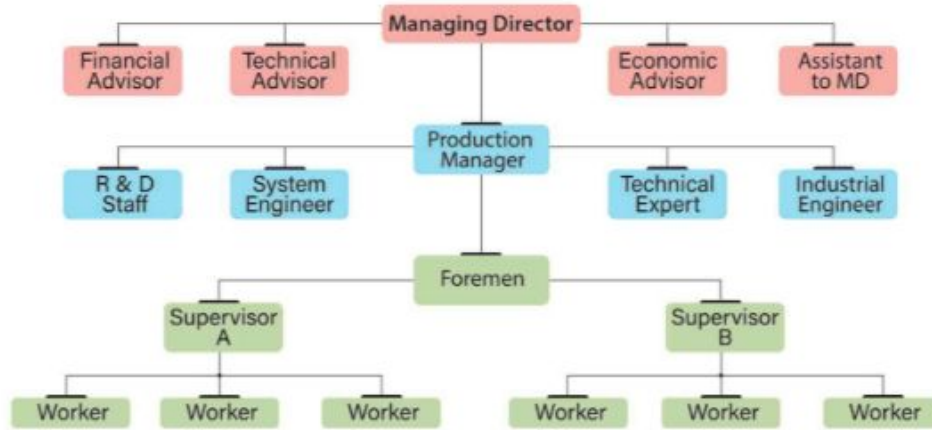

- Simple to Work
- Economical and Effective
- Unity of Command
- Better Responsibility
- Fixed Discipline
- Prompt Decision

Disadvantages

- Over Reliance
- Lack of Specialization
- Inadequate Communication
- Lack of Coordination
- Authority Leadership

Line and Staff Organization

Characteristics

- Two Types of Staff: Staff Assistants & Staff Supervisors
- Two Lines of Authority: Line Authority & Staff Authority
- Division of Work
- Different Functional Areas With Staff Specialists Attached
- Power of Command Remains With the Line Executive

Advantages

- Relief to Line of Executives
- Benefit of Specialization
- Better Co-Ordination
- Benefits of Research and Development
- Unity of Action
- Balanced Decisions

Disadvantages

- Lack of Understanding
- Lack of Sound Advice
- Line and Staff Conflicts
- Assumption of Authority
- Expensive
- Staff Steals the Show

Functional Organization

Characteristics

- Tasks Divided Into Functions
- Functions Performed by Specialists
- Functions Overseen by Functional Heads
- Functionals Head Enjoy Considerable Independence

Advantages

- Specialization and Departmental Competence
- Operational Speed and Clarity
- Scope of Expansion
- Better Control

Disadvantages

- Weakening of Common Bonds
- Lack of Coordination
- Territorial Disputes
- Delay in Decision Making

Divisional Organization

Also known as

Multi-divisional Organization | M-form Organization

Characteristics

- Organizational Functions Grouped Into a Division
- Divisional Resources To Support Product Line
- Multiple Subsidiary Companies Under a Parent Company
- Low Impact of Divisional Failure

Advantages

- Accountability
- Team Culture
- Responsive to External Changes
- Better Strategic Decisions by Leaders

Disadvantages

- Not a Possibility in Small Organizations
- Difficulty in Integrating Divisions
- Cruel Competition
- Lack of Communication
- Doesn't Get Most Out of Economies of Scale

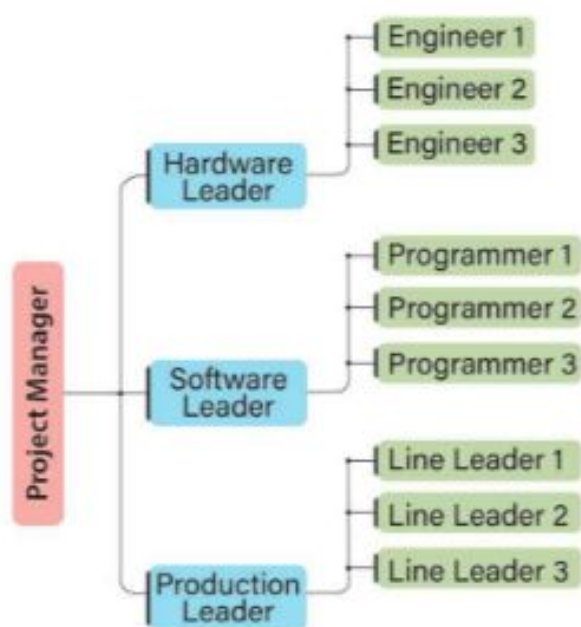

Project Organization

Also known as

Projectized Organizational Structure

Characteristics

- Temporary Setup for Specific Projects
- Headed by the Project Manager
- Dismantled Upon Project Completion
- Works Well for Projects With Clearly Defined Objectives

Advantages

- Easy Communication
- Strong Sense of Identity
- Efficient and Effective Use of Resources

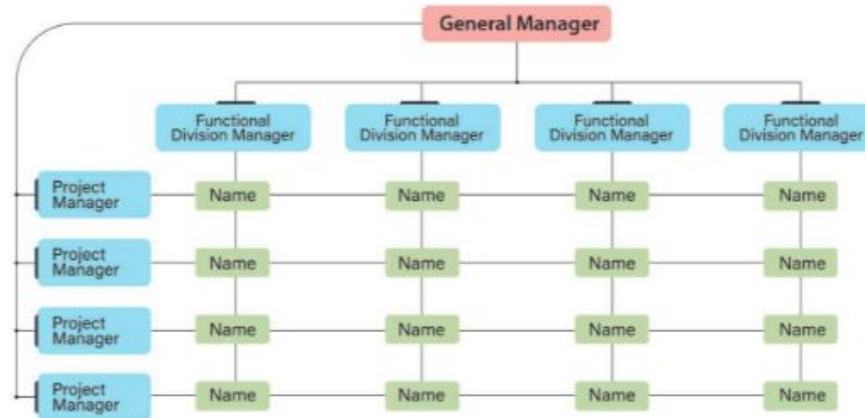

Disadvantages

- No Clear Growth Path
- Expensive
- All Specialists Dedicated to One Single Project

Matrix Organization

💡 Also known as
Grid Organization

Characteristics

- Focuses Attention on Specific Projects
- Draws Personnel From Various Departments
- Functional Managers Responsible for Functional Integrity
- Project Objectives Are of Paramount Importance

Advantages

- Efficiently Gathers People With Specialised Skills
- Flexible in Nature
- Motivates Personnel Engaged in the Project
- Balances Time, Cost, and Performance

Disadvantages

- Violates Unity of Command
- Complicated Problem of Coordination
- Not Homogenous and Compact
- Indiscipline and Ambiguity Because of Dual Reporting

Virtual Organization

Also known as

Digital Organization | Network Organization | Modular Organization

Characteristics

- Borderless Organization Located in Cyberspace
- Geographically Spread Teams
- Electronic Communication Through ICT
- Complimentary Resources Work Toward a Goal

Advantages

- Saves Time and Travel Expenses
- Quick Access to Experts
- Dynamic Team Membership
- Online Communication and Reports for Swift Responses

Disadvantages

- Lack of Physical Interaction
- Requires Increased Focus on Communication
- Security and Compliance Issues
- Reputational Risks

Project Team

- Business Analyst
- Project Sponsor
- Project Manager
- Team members
 - Programmers
 - QA
 - Designers
 - Team leader

Thanks :)
